

Solaris® 9 licensing information

Thank you for purchasing the media for the Solaris 9 Operating Environment. If this package was purchased with a new UltraSPARC™-based computer system from an authorized channel of Sun Microsystems on which you plan to use the Solaris 9 software, this card authorizes your use for that system. Every new UltraSPARC based computer purchased from Sun includes a Solaris software license for the then current release of the product.

If, however, you intend to use the media in this package to upgrade a Sun (or other) system that is running an older version of the Solaris Operating Environment, you may need to purchase an upgrade license. Visit <http://www.sun.com/solaris/binaries> or the Sun Store (<http://store.sun.com>) for upgrade licensing information or contact your sales representative or authorized Sun reseller.

In all cases (in particular when you plan to use the software with non-Sun or non-SPARC computers) consult the additional licensing information, including the Supplemental License Terms, that comes with this package or the hardware you just purchased. You are only entitled to install those software components you have paid any required fee for.

Lizenzinformationen zu Solaris 9

Vielen Dank, dass Sie die Software für die Betriebsumgebung Solaris 9 gekauft haben. Wenn Sie dieses Paket gemeinsam mit einem neuen UltraSPARC-System über einen von Sun Microsystems autorisierten Kanal bezogen haben und die Software Solaris 9 auf diesem System verwenden möchten, so räumt Ihnen die vorliegende Karte eine Nutzungserlaubnis für die Software auf dem betreffenden System ein. Jedes von Sun erworbene neue UltraSPARC-System **beinhaltet eine Solaris-Softwarelizenz** für die zum jeweiligen Zeitpunkt aktuelle Version des Produktes.

Wenn Sie hingegen beabsichtigen, mit der in diesem Paket enthaltenen Software ein Sun- bzw. ein anderes System aufzurüsten, auf dem eine ältere Version der Betriebsumgebung Solaris installiert ist, müssen Sie unter Umständen eine Aktualisierungslizenz erwerben, Informationen über Aktualisierungslizenzen finden Sie unter <http://www.sun.com/solaris/binaries> oder auf der Sun-Store-Website (<http://store.sun.com>), oder fragen Sie Ihren Vertriebsvertreter bzw. Sun-Vertragshändler.

Lesen Sie bitte auf jeden Fall (insbesondere für den Einsatz der Software auf Nicht-SPARC-Systemen oder Systemen anderer Hersteller) die zusätzlichen Lizenzinformationen, einschließlich der "Zusätzliche Lizenzbedingungen", die entweder diesem Paket oder der von Ihnen erworbenen Hardware beiliegen. Sie sind ausschließlich zur Installation der Softwarekomponenten berechtigt, für die Sie die etwaige erforderliche Gebühr errichtet haben.

Información sobre las licencias de Solaris 9

Le agradecemos la compra de los discos del entorno operativo Solaris 9. Si ha adquirido este paquete con un sistema UltraSPARC nuevo en el que piensa utilizar el software de Solaris 9, esta tarjeta le autoriza a usar el software en ese sistema. Cada sistema UltraSPARC adquirido a través de los distribuidores autorizados de Sun incluye una licencia para la última versión de Solaris que se encuentre disponible en ese momento.

Si, por el contrario, tiene previsto usar el contenido de este paquete para actualizar una versión antigua de Solaris en un sistema Sun (o de otro fabricante), puede que necesite adquirir una licencia de actualización. Consulte la página <http://www.sun.com/solaris/binaries> o la tienda virtual de Sun (Sun Store) en <http://store.sun.com> para obtener más información sobre las licencias de actualización, o bien acuda a su distribuidor de Sun.

En todos los casos (en particular, si piensa usar el software con sistemas de otros fabricantes o con procesadores distintos de SPARC) consulte la información adicional sobre licencias incluida en el documento "Términos suplementarios de licencia", que se entrega con este paquete o con el hardware que acaba de adquirir. Sólo está autorizado a instalar los componentes de Software después de haber satisfecho el importe correspondiente.

Informations sur les licences de Solaris 9

Merci d'avoir acheté les disques de l'environnement d'exploitation Solaris 9. Si ce coffret a été acheté avec un nouvel ordinateur à processeur UltraSPARC chez un revendeur agréé de Sun Microsystems sur lequel vous projetez d'utiliser le logiciel Solaris 9, cette carte vous autorise à l'utiliser pour ce système. Tout nouvel ordinateur basé sur un processeur UltraSPARC et acheté chez Sun inclut une licence du logiciel Solaris pour la version courante du produit.

Si, en revanche, vous avez l'intention d'utiliser les supports contenus dans ce coffret pour mettre à jour un système Sun (ou autre) qui exécute une version plus ancienne de l'environnement d'exploitation Solaris, il se peut que vous deviez acheter une licence de mise à jour. Rendez-vous sur <http://www.sun.com/solaris/binaries> ou sur Sun Store (<http://store.sun.com>) pour toute information sur les licences de mise à jour ou contactez votre représentant ou votre revendeur agréé Sun.

Dans tous les cas (en particulier si vous projetez d'utiliser le logiciel avec des ordinateurs de marque autre que Sun ou basés sur des processeurs autres que des processeurs SPARC), consultez les informations de licence supplémentaires, « Conditions de licence supplémentaires » compris, qui accompagnent ce coffret ou le matériel que vous venez d'acheter. Vous n'êtes autorisé(e) à installer que les composants du logiciel pour lesquels vous avez versé les redevances dues.

Informazioni sulla licenza di Solaris 9

Grazie per avere acquistato l'ambiente operativo Solaris 9. Se questo prodotto era in dotazione con un nuovo sistema UltraSPARC distribuito da un rivenditore autorizzato di Sun Microsystems sul quale si intende utilizzare Solaris 9, questa scheda autorizza l'utente all'uso di tale sistema. Tutti i nuovi sistemi basati sul processore UltraSPARC acquistati da Sun includono una licenza di Solaris relativa alla versione corrente del prodotto.

Se viceversa si intende utilizzare questo disco per aggiornare un sistema Sun (o di altri produttori) che utilizza una versione precedente dell'ambiente operativo Solaris, sarà necessario acquistare una licenza di aggiornamento. Per informazioni a riguardo, accedere alla pagina Web <http://www.sun.com/solaris/binaries> o al sito Web di Sun Store (<http://store.sun.com>), oppure contattare un rappresentante commerciale o un rivenditore autorizzato Sun.

In tutti i casi (in particolare se si prevede di utilizzare il software con sistemi non-SPARC o non prodotti da Sun), consultare le altre informazioni sulla licenza, inclusa la sezione "Termini di licenza supplementari", fornite con il pacchetto o con l'hardware acquistato. Si avrà diritto ad installare solo i componenti software per i quali è stato corrisposto il prezzo richiesto.

Licensinformation för Solaris 9

Tack för att du har köpt media för Solaris 9 operativmiljön. Om paketet följe med ett nytt UltraSPARC-baserat datorsystem från en auktoriserad återförsäljare för Sun Microsystems där du tänker använda Solaris 9, utgör detta kort bekräftelsen på din rätt att göra det. Alla nya UltraSPARC-baserade datorsystem som köps från Sun har en medföljande licens för den senaste Solaris-versionen.

Om du däremot tänker använda skivorna i paketet för att uppgradera ett system från Sun eller någon annan leverantör, som kör en äldre version av Solaris operativmiljön, kan det hända att du måste köpa en uppgraderingslicens. Du hittar information om licensuppdatering på <http://www.sun.com/solaris/binaries> och Sun Store (<http://store.sun.com>). Du kan även kontakta din säljare eller auktoriserade Sun-återförsäljare.

Du bör alltid (särskilt om du tänker använda programvaran med system som inte kommer från Sun eller inte är baserade på SPARC) läsa igenom övrig licensinformation, inklusive "Ytterligare licensvillkor", som medföljer i detta paket eller ditt nyinköpta maskinvarupaket. Du har endast rätt att installera de programvarukomponenter för vilka eventuell erforderlig avgift erlägts.

Solaris 9 ライセンス情報

Solaris 9 オペレーティング環境のパッケージをお買い上げいただき、まことにありがとうございます。このパッケージを Sun Microsystems, Inc. (以降 Sun とします) が認定したチャネル、から UltraSPARC ベースのコンピュータシステム (Solaris 9 ソフトウェアを実行するコンピュータ) といっしょにお求めになった場合は、このカードが当該システムの使用許諾書になります。新しくお求めになった Sun の UltraSPARC ベースのコンピュータには、製品の出荷当時の Solaris ソフトウェアのライセンスが含まれています。

このパッケージを古いバージョンの Solaris オペレーティング環境を実行している Sun (または Sun 以外) のシステムのアップグレード目的でご使用になる場合は、アップグレードライセンスのご購入が必要となることがあります。アップグレードライセンス情報については、<http://www.sun.com/solaris/binaries> または Sun Store (<http://store.sun.com>) をご覧になるか、販売代理店あるいは Sun の認定リセラーまでお問い合わせください。

すべての場合において (特に Sun の製品ではない、または SPARC チップを搭載していないコンピュータでソフトウェアを使用する場合)、このパッケージ、またはご購入したハードウェアのパッケージについてくる追加のライセンス情報 (「補足ライセンス契約条項」を含む) を必ず参照してください。ここでは、お支払い済みのソフトウェア製品をインストールする権利のみ与えられています。

Solaris 9 许可信息

感谢您购买 Solaris 9 操作环境介质。如果该软件包是从 Sun Microsystems 的授权渠道随一套崭新的基于 UltraSPARC 的计算机系统购买的，而您又打算在该系统上使用 Solaris 9 软件，则本卡将授予您使用该系统的权利。从 Sun 购买的每一套基于 UltraSPARC 的新计算机系统均包含产品当前最新版本的 Solaris 软件许可证。

然而，如果您要使用该软件包中的介质来升级运行 Solaris 操作环境较早版本的 Sun (或其它公司) 的系统，则可能需要购买升级许可证。请访问 <http://www.sun.com/solaris/binaries> 或 Sun Store (<http://store.sun.com>) 以获取升级许可信息，也可以与您当地的销售代表或 Sun 授权的经销商联系。

在任何情况下（特别是在您打算用非 Sun 或 SPARC 计算机使用此软件时），请参考附加的许可信息，包括“补充许可证条款”，该信息随附在此软件包或您刚刚购买的硬件中。您只有权安装已经为其支付任何必要的费用的软件组件。

Solaris 9 라이센스 정보

Solaris 9 운영환경 매체를 구입해 주셔서 감사합니다. Sun Microsystems의 인증 기관을 통하여 Solaris 9 소프트웨어가 사용될 새로운 UltraSPARC 기반의 컴퓨터 시스템과 함께 이 패키지를 구입한 경우, 이 카드는 해당 시스템의 사용을 인증합니다. Sun으로부터 구입한 모든 새로운 UltraSPARC 기반의 컴퓨터는 제품의 현재 해당 릴리스에 대한 Solaris 소프트웨어 라이센스를 포함하고 있습니다.

Solaris 운영환경의 구 버전이 사용되고 있는 Sun 또는 다른 시스템을 업그레이드하기 위해 이 패키지의 매체를 사용하려고 하는 경우, 사용자는 업그레이드 라이센스를 구입해야 할 필요가 있을 수 있습니다. 업그레이드 라이센스 정보는 <<http://www.sun.com/solaris/binaries>> 또는 Sun Store (<<http://store.sun.com>>)를 방문하거나, 가까운 판매 대리점 혹은 인증된 Sun 리셀러에 문의하십시오.

모든 경우에 (특히, 비 Sun 또는 비 SPARC 컴퓨터의 소프트웨어를 사용하려고 하는 경우) 구입하신 패키지나 하드웨어와 함께 제공되는 "보충 라이센스 조건"을 포함한 추가 라이센스 정보를 참조하십시오. 사용자는 필요 비용이 지불된 소프트웨어 구성 요소를 설치할 권리가 있습니다.

Solaris 9 授權資訊

謝謝您購買 Solaris 9 作業環境媒體產品。如果您透過 Sun Microsystems 授權管道購買將執行 Solaris 9 軟體的新 UltraSPARC 架構電腦系統時，同時購買了本套裝軟體，本卡將可保證您使用此系統的權利。每部購自 Sun 的新 UltraSPARC 架構電腦都包含產品的目前版本之 Solaris 軟體授權。

但是，如果您希望用本套件軟體內的媒體來升級正在執行舊版本 Solaris 作業系統的 Sun 系統 (或其他系統)，您可能就需要購買升級授權。如需升級授權詳細資訊，請造訪 <http://www.sun.com/solaris/binaries> 或 Sun Store (<http://store.sun.com>)，或洽詢您的業務代表、或經授權的 Sun 經銷商。

請隨時（特別是當您計畫在非 Sun 或非 SPARC 電腦上使用軟體時）查閱隨附於您甫購買的套裝軟體中包含“補充授權條款”的其他授權資訊。

您僅可以安裝已付款項的軟體。

Start Here!

1: Understand "the Sun" Open Net Environment (Sun ONE) Vision

If you have received the DVD, insert it into your home DVD player or computer to watch Jonathan Schwartz and other Sun executives explain what Sun ONE is, how it relates to you and why it's important! If you have received the CD version, insert CD 1 into your computer to view this presentation located under the "What's New" section of the kit.

2: Get the Sun ONE Architecture Guide

> The Sun ONE Overview section and read the latest version of the Sun ONE Architecture Guide. Read the articles and white papers to understand how Sun ONE integrates into and builds upon your existing IT infrastructure and how to leverage it to deliver Java™ technology-based applications, Web services and Services on Demand today.

3: Install and Start Using Sun ONE

- > The Platform and Technologies Section and...
 - > Install the latest Sun ONE Middleware products and tools
 - > Read the white papers, online book articles, Java BluePrints
 - > Take the online classes
 - > Investigate the latest Java technologies
 - > Read the Quickstart Deployment Guides to get a jumpstart on your development
 - > Look at the Code Camps, How-To's and Code Samples to get coding and begin deploying your first sample applications quickly

4: Install Sun ONE Developer Platform 1.0 Beta

This release of the Starter Kit also contains Sun ONE Developer Platform 1.0 Beta as a separate set of CDs. The Sun ONE Developer Platform delivers a complete environment for creating Web Applications, Web Services and sophisticated Portals tailored to user roles. It integrates development tools and server software to accelerate development of your proof of concept based on Sun ONE products.

To install Sun ONE Developer Platform, locate the sleeve containing the Sun ONE Developer Platform CDs and insert CD 1 into your CD-ROM drive.

Send beta feedback to sunonedp-feedback@sun.com

Sun ONE
Open Net Environment

The Sun Open Net Environment (Sun ONE) is Sun's standard architecture, platform, and expertise for building and delivering Web services and services on demand.

The Vision

Supports development and deployment of dedicated and Web-based applications today, and the emerging service delivery methods of tomorrow.

The Architecture

Based on open industry standards to avoid lock-in with any one vendor.

The Platform

Provides an integratable, scalable, and cost-effective infrastructure.

The Expertise

Provides consulting, technical education and support to help architect, implement and manage your Sun ONE infrastructure.

Java technology is the choice for
form applications and services. This
is the ideal platform on which to develop
Demand, the heart of the Sun ONE

to implement
is provided with a wide range of Java technologies:
J2 Platform, Enterprise Edition (J2EE), Java
Server Pages (JSP), And the Java APIs for XML enable the use of
various technologies with support for WSDL, SOAP, UDDI,
<http://sun.com/webservices/>

Java technology gives you the ability to support a broad range of application services, without
being tied to any one platform or single-vendor solution.

The following products included in the Sun ONE Starter Kit:

- Sun ONE Developer Platform 1.0 Beta (Windows, Solaris® Platform Product, 90-day evaluation) consisting of:
 - SunOffice™ 6.0, Update 2 (90-day evaluation)

Developer Tools:

- Sun ONE Studio 4, Update 1, Enterprise Edition for Java 2 Platform, Enterprise Edition
- Sun ONE Application Framework 2.0 (Windows Platform Product, 90-day evaluation)
- Sun ONE Connector Builder 2.0
- Sun ONE Portlet Builder 1.0

Servers:

- Sun ONE Application Server 7 SE
- Sun ONE Portal Server 6.0
- Sun ONE Identity Server 5.1
- Sun ONE Integration Server EAI Edition 3.0 SP1

Java Web Services Developer Pack 1.0

- Java 2 Platform, Enterprise Edition (J2EE™ Platform) SDK 1.3.1
- Java 2 Platform, Standard Edition (J2SE™ Platform) SDK 1.4.1
- Java 2 Platform, Micro Edition (J2ME™ Platform)
- Sun ONE Studio 4, Update 1, Community Edition
- Sun ONE Studio 4, Update 1, Mobile Edition
- Sun ONE Studio 7, Compiler Collection (try-n-buy)
- Sun ONE Active Server Pages 3.6.2
- Java XML
- J2ME ToolKit

Java 2 Platform, Enterprise Edition

BluePrints and J2EE

Solaris® Platform Product

StarOffice™ 6.0, Update 2 (90-day evaluation)

SunOffice™ 6.0, Update 2 (90-day evaluation)

These products and technologies are licensed under a binary code license agreement, generally for a one-year term, to permit the development of applications using the Sun ONE Platform.

Sun ONE Studio 4, Enterprise Edition

Included off the Kit and has a

license. To activate it, please
